

Loanhead Primary School

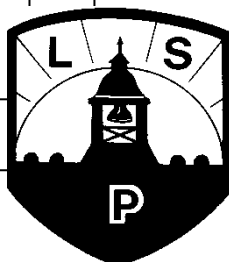

School Improvement Plan

2016 - 2017

Our plan is organised through the use of the document How Good Is Our School 4 and lays out key identified areas for improvement in Leadership and Management, Learning Provision and Successes and Achievements. This plan is based on self evaluation evidence from pupils, staff and parents.

Learning Provision

- Looking at the curriculum and developing clear, progressive and coherent learning pathways in science and technologies from nursery to P7
- Developing a Religious and Moral Education curriculum from nursery to P7 that informs and engages pupils.
- Learning and teaching and assessment - developing the use of evidence folders at every stage which will support ongoing CLPL in achieving a level.
- To develop nursery profiles that are meaningful and manageable to track a child's learning journey throughout their nursery experience

Successes and Achievements

Ensuring wellbeing, equality and inclusion by fulfilment of statutory duties - the implementation of the named person legislation to ensure that the Head Teacher remains updated and is knowledgeable about the role.

- Raising attainment and achievement, through a working party of staff and parents looking at homework and home support looking at tasks, timeframes and use of technology
- Visible learning and looking at effect size and how best to raise attainment. Working collegiately on formative assessment.

Leadership and Management

- Leadership of learning to continue to build a clear, progressive and coherent campus programme which impacts positively throughout the learning community.
- Leadership of change - to look at strategic long term plans and rewrite policies to update with a focus on planning for continuous improvement.
- Leadership and management of staff focus on building and sustaining a professional staff team in the nursery. Supporting and facilitating new leadership opportunities under the new model.
